Riverfront Committee Meeting

Councilman Lee Garrison's remarks with regard to Riverfront Action Alert email:

I will say this: I did receive a few emails today, ah, I know several fellow council members did the mayor did and staff did and ah, lot of them, some of it was, ah, I just have to say frank just false, misleading ah comments and, ah, Bob's gonna try to clarify some of that so that we can all be **fact-driven** (emphasis his). This is going to be a fact driven situation. If people are going to try to defeat this or try to do things that aren't going to be what we think are fact driven I'm not going to take them into account and I'm sure my colleagues aren't so, um, we're going to try to make sure this process is fair, open I think we've been that way since day one and we're gonna be that way as we move through the process so we really would appreciate everybody keeping their comments to what the facts are as far as what Bob has drafted and not, ah, things that are not factual. Thank you.
